

Call for Papers

The Thirteen China-Japan International Workshop on Information Technology and Control Applications

Enshi, Hubei, China

September 25-29, 2020

Organizers:

China University of Geosciences

Beijing Institute of Technology

Tokyo University of Technology

Aims

The purpose of the Thirteen China-Japan International Workshop on Information Technology and Control Applications, ITCA 2020, is to promote discussion and interaction between researchers and practitioners in the areas of information technology and control systems. We are particularly interested in fostering the exchange of concepts, prototypes, research ideas, and other results which could contribute to academic fields and also benefit business and the industrial community.

Main Topics

- ◆ Cybernetics & Interfaces
- ◆ Network Communications
- ◆ Deep Learning
- ◆ Process Control
- ◆ Optimization and Control
- ◆ Virtual Engineering
- ◆ E-Learning & Remote Laboratories
- ◆ Education and Information Systems
- ◆ Mobile/Wireless Computing
- ◆ Image, Acoustic, Speech & Signal Processing
- ◆ Applications of Advanced Control Theory
- ◆ Intelligent/Robust Modeling & Control
- ◆ Network Control
- ◆ Distributed/Decentralized Control Methods
- ◆ Robotics
- ◆ Affective Computing
